

"QUINCY DOOMED"

Unless Dock Provisions Can Be Made for Removal of Granite Waste

SAY HER LEADING GRANITE MEN

Open Quarries Are Practically Worked Out, Say the Quarrymen

Quincy, Mass., Jan. 15.—Quincy, as a granite center, is doomed unless provisions can be made for the removal of the mountains of accumulated granite "chips." Hundreds of thousands of tons of these chips cover great areas necessary for development, according to leading granite men who appeared before the Quincy Board of Trade Wednesday night to urge the establishment of a public dock on Town river, which will open a way for the removal of this waste.

Though the legislature gave Quincy authority to borrow \$100,000 for such a dock two years ago, nothing has been done. A special committee elected a year ago for an investigation, reported on Wednesday night that immediate action was necessary. It was voted to put the matter in the hands of Mayor Chester I. Campbell, with the request that he take action at once.

As there has never been any way of disposing of the "chips" this refuse has been accumulating year after year for decades. The piles now cover a much greater area in the granite section than remains unworked. "Open areas are practically worked out," the quarrymen claim.

Attorney Edward J. Fegan was elected president Wednesday night, succeeding John T. Hamilton. Other officers elected: Vice president, Herbert S. Barker; secretary-treasurer, John O. Hall; auditor, Arthur W. Stetson.

TWO BOY CHUMS HELD.

After Fatal Shooting of "Red" O'Sullivan in Boston

Boston, Jan. 14.—"Red" Sullivan, known to the police as a member of South End gangs, was shot and killed by a companion yesterday. Richard Vianour of Newport, R. I., who was recently released from the Concord reformatory, and Kid Conway, a boy of 18 years, O'Sullivan's friends, were held by the authorities last night as suspicious persons.

According to the police, they changed a story they first told, to the effect that "Red" had taken his own life, to an admission that Vianour had held the revolver from which the bullet was fired. Vianour is said to have told the officers that he pulled the revolver from Conway's hip pocket and was twisting it around on his fingers when it accidentally exploded and O'Sullivan fell.

"Honest, I did not know any bullets were in it," he said.

"We thought we could save a lot of trouble by saying it was a suicide," was Vianour's explanation of the first story. O'Sullivan was found in his room at a South End lodging house by the proprietor. He was unconscious and died soon afterward.

Ira O'Byrne, said to be Vianour's sweetheart, was also detained by the officers.

ALLIES' TOBACCO HELD UP.

Two and One-Half Tons Were for Soldiers in France.

Paris, Jan. 14.—Two and one-half tons of tobacco and cigars, half of a shipment recently made by a number of Americans as a gift for the allies' soldiers in the trenches arrived yesterday and caused perturbation in the fiscal department, as the duties were 150,000 francs (\$30,000). The shipment has not yet been cleared, but it is said that the decision is certain to be favorable.

The shipment includes a case of cigars, pipes and tobacco for General Joffre, commander-in-chief of the French forces "from his American friends." There is also a case for King Albert of Belgium.

WHEN RUN-DOWN, WEAK AND NERVOUS

What Should a Man Do? Suggestion of Ohio Druggist to One Such Man Saved His Life. So He Says

Nelsonville, Ohio.—"I was all run-down, weak and nervous and had no appetite at all. In fact, I was very much discouraged until our druggist told me about Vinol and asked me to try it. I did so, and it has certainly been a life-saver to me. I am gladly recommending Vinol to anyone who needs a blood and nerve tonic.—S. R. Stencel, Nelsonville, Ohio.

When a man is run-down, weak and nervous, he needs a good appetite, good digestion, better blood, more strength, more vitality, and we do not know of any medicine that will supply it so quickly as Vinol.

It is the active medicinal principles of cod liver oil, aided by the blood-making, strengthening properties of tonic iron, contained in Vinol, which makes it so efficient in building up health and strength for weak, nervous, run-down men and women.

We ask every weak, nervous, run-down person in this locality to try Vinol on our guarantee, and if it fails to help you we will return your money.

Flory G. Russell, Druggist, Barre, Vt., and at leading drug stores everywhere.—Adv.

CATARRH LEADS TO CONSUMPTION

Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It causes headache and dizziness, impairs the taste, smell and hearing, affects the voice, deranges the digestion, and breaks down the general health. It weakens the delicate lung tissues and leads to consumption.

Hood's Sarsaparilla goes to the seat of the trouble, purifies the blood, and is so successful that it is known as the best remedy for catarrh.

Hood's Sarsaparilla strengthens and tones the whole system. It builds up. Ask your druggist for Hood's, and insist on having it. There is no real substitute.—Adv.

WHEAT MAKES NEW HIGH PRICE RECORD

May Product Reaches \$1.42½ Per Bushel—Heavy Profit-Taking in Evidence.

Chicago, Jan. 15.—Grabbing up of spring wheat by exporters swept the wheat market yesterday to a new high record war level of prices. May wheat easily reached \$1.42½ a bushel, thus surpassing the former tip-top quotation, \$1.41½, which was reached Jan. 8, before the bulls had been intimidated by rumors that the Dardanelles would quickly be forced and that an attack by Italy on Turkey would hasten the end of the war. Yesterday's advance was accompanied by reports that the Pacific coast was outbidding Minneapolis for wheat in North Dakota and that the Pacific coast crop of 1914 had been entirely disposed of. The upturn which broke the record here, however, was not accomplished until after there had been heavy profit taking sales by dealers whose motto appeared to be "safety first."

SENATE CHECKS TOMFOOLERY.

Rejects Plan of New Hampshire House to Instruct Congress.

Concord, N. H., Jan. 15.—The state Senate yesterday, 15 to 7, voted to indefinitely postpone the House concurrent resolution calling upon Congress to use every legal means to secure the return of "millions wrongfully diverted from New England railroads," by alleged deals. Senator Martin of Concord said it was "tomfoolery" for the New Hampshire legislature to attempt to instruct Congress.

The House adopted a resolution opposing increases in the salaries of state officials and received a bill abolishing the office of fish and game commissioner, created two years ago, and re-establishing the fish and game commission of three members.

THE BASEBALL FIGHT.

Speedy Determination Expected in Court Next Week.

Chicago, Jan. 15.—Speedy determination of the injunction proceedings instituted by the Federal league to prevent organized baseball from interfering with its operations and players, is expected when the case is opened next Wednesday before Judge Landis in the United States district court.

August Herrmann, chairman of the national baseball commission, held a conference with attorneys for organized baseball, yesterday, at which work of framing a defense for the charges brought by the Federal league was continued. Herrmann planned to return to Cincinnati last night or to-day, but will be back Monday for a final conference with John K. Tenner, president of the National league, in regard to the plans of defense. John A. Heyler, secretary of the Nationals, who has been aiding Herrmann, returned east Wednesday night.

To Play in Boston.

Boston, Jan. 15.—The engagement of Fenway park for the Dartmouth-university of Pennsylvania football game was announced yesterday. It will be the first visit of a Pennsylvania eleven to this city since 1904, when Harvard was defeated, 11 to 0.

FUNERAL OF TRAIN VICTIM.

Was Held at Rutland, Many Friends Attending.

Rutland, Jan. 15.—The funeral of Henry W. Wilcox, who was killed Tuesday afternoon at two o'clock at the intersection of Park and South Main streets by an outboard train, was held at his late home on South Main street yesterday afternoon at two o'clock.

The services were in charge of Vermont lodge, Knights of Pythias, and a large delegation of the members were present to act as an escort to the body from the house to Evergreen cemetery, where the burial took place. Fred A. Field read the ritual service of the society at the grave and Rev. G. C. Boon officiated at the house.

The bearers were all members of the Knights of Pythias lodge. W. L. Davis, O. S. Frost, Dr. Robert Weir, Dr. G. J. Gilchrist, George A. Bucklin and Henry Vergosen.

Those from out of town who attended the funeral were J. D. Wilcox, a brother of the deceased, and Mr. and Mrs. P. W. Green of Stockbridge, Mr. and Mrs. William Smith and Harold Smith of Shrewsbury; Willard Smith of Burlington; E. C. Parker of Northampton, Mass.; Henry Wilcox and David Everett of Bethel; Dr. and Mrs. F. H. Everett of Canton.

WANTS 525 POSTMASTERS.

Civil Service Examination Feb. 20 for Fourth-Class Positions.

Washington, Jan. 15.—Examinations will be held by the Civil Service commission Feb. 20 to fill 525 fourth-class postmaster positions paying \$900 a year or more, for which on one passed the examination had last year. These offices are scattered all over the country, some in every state except Delaware, Arkansas and Rhode Island.

Shot Through Head.

Madison, Mo., Jan. 15.—The seven-month-old child of E. D. Hardy was fatally shot through the top of the head last night by Edgar Henderson, aged 18, while the latter was playing with a .25-caliber Smith & Wesson. The child had been left in the care of two other children.

NEARING WARSAW

Germans Win Considerable New Ground in Poland

BUT RUSSIANS TAKE VILLAGES

In Drive Further North—Advancing in the Southwest

London, Jan. 15.—The Germans center in Russian Poland, which is endeavoring to break through the Russian lines before Warsaw, has gained considerable ground in a series of violent attacks during the last 48 hours, according to dispatches from Petrograd yesterday.

To counterbalance these Russian reverses, the czar's troops further north, who are striking toward East Prussia from the region southwest of Mlaw, have made a further advance and captured several villages.

In a desperate action in East Prussia the Russians have driven back the Germans and have taken an important part of the German defensive arrangement in the Mazurian lake region.

An official report from Petrograd refers optimistically to the fighting in the Rosog district of East Prussia.

The activity in East Prussia is taken to indicate that the lakes are now frozen. Otherwise the Russians would have been unable to make the gains reported. According to the report important fortified villages have been captured by bayonet charges and German cavalry and infantry which sought to check the new advance driven back.

Despite the fact that German attacks south of the Vistula have made a severe demand upon the czar's forces, the latter evidently contemplate another invasion of East Prussia from the south, as indicated by the action in the direction of Mlaw.

In South Poland the Russians are again trying to cross the Nida in the face of a large Austrian force.

Recent accounts of Russian operations reveal nothing definite about the operations in Galicia or Bukovina. A Bucharest dispatch, however, says that the Russians have begun an attack on Austrian fortifications in the mountains separating Bukovina from Transylvania, and that the invasion of the latter territory will probably bring Rumania into the war.

BLEASE QUITS AHEAD OF TIME

And He Pardoned Forty More as a Parting Shot at the Critics.

Columbia, S. C., Jan. 15.—With a record of having pardoned more prisoners than any state executive in history, Gov. Cole L. Blease surprised friends and foes yesterday by resigning at noon, five days before his four years' term in office would have ended.

Rumors of threatened impeachment proceedings against Blease had been rife in the state legislature for the last few days as a result of his action in pardoning prisoners.

Before resigning yesterday morning, Blease pardoned forty more convicts, putting the total to more than 3,000. Lieut-Gov. Charles A. Smith of Timmonsville was sworn in at one o'clock as Governor until Governor-elect Manning is inaugurated Tuesday.

Great excitement in the legislature was caused by Blease's summary resignation. The Senate went into executive session immediately and arranged for Smith to act as "temporary" governor.

"I hereby resign as governor," was the curt notice of Blease to the legislature, received in its joint session shortly after convening. Blease's signature was a big splash of red ink.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of sage tea and sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of sage and sulphur restores its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural color, thickness and luster of your hair and remove dandruff, stop scalp itching and falling hair.

Everything uses "Wyeth's" Sage and Sulphur because it cures so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.—Adv.

BLACKSTONE
NEW-ENGLAND-MADE
HAND-MADE
10-CENT COAT

THIS WILL INTEREST STOMACH SUFFERERS

Says Indigestion Comes from an Excess of Hydrochloric Acid

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases, which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash, or nausea.

He tells us to lay aside all digestive aids and, instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and, furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys, and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—Adv.

MILLIONS FOR MISSIONS.

Income of American Foreign Boards Is \$17,166,611.

New York, Jan. 15.—The total income of American foreign mission boards during the year 1914 was \$17,166,611, according to statistics made public yesterday by heads of the various church mission boards now in conference. These figures cover the work of all American organizations doing educational and philanthropic as well as missionary work outside the United States and Canada, except that conducted under the auspices of certain other mission boards in Mexico, Cuba, Porto Rico, Hawaii and Alaska. For this work \$509,510 was contributed during the year. Statistics show that contributions fell slightly below the amount received in 1912, the banner year, and exceeded by more than \$1,000,000 the contributions of 1913. In 1901, the first year for which statistics were available, the contributions totaled \$6,228,173.

Natives in foreign mission fields, the report asserts, contributed \$4,248,967 to work conducted by American missionaries. There are 9,969 missionaries enrolled by the several organizations; 159,286 persons were baptized during the year—a gain of 37,475 over 1913. A gain of 510 churches is reported, bringing the number up to 9,040. There are 606 colleges, theological seminaries and training schools, and 12,969 other schools with a total attendance of 547,730.

Great Britain and continental Europe again fell below America in the amount of contributions, according to the latest available figures, which are those for 1913. All Christendom, the report asserts, contributed \$32,131,234 to foreign missionary work in 1913, America contributing more than one-half.

A New Experience.

Brown is a melancholy soul. Rumor hath it once he was crossed in love. At any rate he is usually a pessimist about things in general, and always particular as to what he eats. The other day he went into a restaurant, and having scanned the luncheon menu, said to the waiter: "I see you have some 'calves' here." "Yes, sir—yes, sir," agreed the waiter, busily flicking crumbs from the tablecloth. "Well, how about it?" continued Brown. "Are they tender?" "Yes, sir," declared the waiter. "Beautifully tender." "Then bring me some," he said. "If there is in the world such a thing as a tender heart, I want it."—New York Call.

HEALTHY HAIR, SOFT, FLUFFY AND RADIANT

Beautiful hair does not just happen to be so, but is always a matter of care and proper nourishment of the hair roots. No matter if your hair is falling out, stringy, lifeless and full of dandruff, Parlan Sage, an inexpensive tonic, sold by all druggists, is all that is ever needed. It nourishes the hair roots and stimulates the growth of new hair. Even dandruff is entirely removed with one application, and itching scalp and falling hair cease; your hair will be bright, vigorous, soft and fluffy.

Whether your hair is oily, dry, or brittle, Parlan Sage immediately removes the cause, and by toning up the scalp quickly restores the hair to its original brilliancy and vigor.

Parlan Sage can always be had from the Red Cross Pharmacy and is a delightful and easily applied treatment that will never fail to act as a real and lasting benefit to your hair and scalp.—Adv.

Men Who Want to Dress Well Should Wear Hart Schaffner & Marx Clothes

Your overcoat is a matter of enough importance to you to take some pains in choosing it. The fabric, the design of the model, the tailoring, the fit over the shoulders and around the collar; all these are matters of moment in deciding on an overcoat.

The best thing about it here is that you can't make a mistake in any Hart Schaffner & Marx Overcoat.

"The War: A British View."

The errors which are now supreme in Germany are: first, a glorification of war, based on a misreading of Darwinism; and, second, an enthronement of mere power, a belief in the unimpaired supremacy of the state.

Consider for a moment. First, a misreading of Darwinism; a misunderstanding of the phrase "struggle for existence" as conducive to evolution, so that slaughter and active conflict seem the highest good. The Darwinian struggle is not of this order at all. It is a selection of the fittest to survive among a crowd of organisms which cannot possibly all survive; a selection of those most fitted to the environment. It is akin to the natural competition and effort with which we are all acquainted in peace-time; it is not like war at all.

Moreover, in so far as there is savagery associated with it, Darwin himself, and Huxley, conspicuously in his Romanes lecture, taught that this unconscious struggle ought not to apply to civilized humanity, whose business it was to contend against and dominate the cosmic process.

The second error is the absolute enthronement of material power, the blas-

phemous notion that nothing higher than the state exists, and that there is no moral law, human or divine, to which the strongest state is subject; nothing above its own conception of what is beneficial to itself. Expediency becomes the supreme guide; all other considerations are signs of weakness and timidity; the sole national virtue is power to execute what it intends; the one fatal sin is deficiency of power. * * *

It is this pernicious doctrine which has practically abrogated all international law; it is this which regards treaties as scraps of paper whenever they become inconvenient; this which has harried Belgium and intended to harry France and England with fire and sword. The theological doctrine of crucial importance of right belief and of the damnation that follows wrong belief has never been so conspicuously illustrated. —Sir Oliver Lodge, in the January number of the North American Review.
